John Haggerty Named Vice President of Biomedical Services for InfuSystem

Madison Heights, Michigan – October 27, 2010 - InfuSystem Holdings, Inc. (OTCBB: INHI; INHIW; INHIU), a leading provider of infusion pumps and associated products and services, has appointed John Haggerty as Vice President of Biomedical Services. In this newly-created position, Mr. Haggerty will oversee biomedical repair, recertification and maintenance services provided from InfuSystem's Biomedical Centers of Excellence in Michigan, Kansas, California, and Ontario, Canada.

"John brings with him nearly 30 years of experience managing the servicing of infusion devices," noted Tom Creal, Executive Vice President. "His in-depth knowledge of Food and Drug Administration (FDA), Good Manufacturing Practices (GMP) and International Organization for Standards (ISO) standards are unrivaled in the industry and he's going to be a tremendous asset to the customers we serve. With John's business, managerial and technical expertise onboard we're raising the bar on our already high standards and creating a world-class biomedical services operation."

Mr. Haggerty was the Global Service Manager for Smiths Medical for the past five years, leading their biomedical technical centers in the U.S., Europe, Australia, and Japan. From 1998 to 2005 he was the U.S. Service & Repair Manager for Sims Deltec. Prior to that, Mr. Haggerty was the Supervisor of the Biomedical Services Group for 3M from 1985 until it was acquired by Smiths Medical in 1997.

Through its recent acquisition of First Biomedical Inc., InfuSystem is now a leading provider of biomedical recertification, maintenance and repair services.

“John has balanced his technical skills with over 20 years of managing and leading top biomedical service teams in global companies,” added Sean McDevitt, Chairman and CEO. “His work with all of the top infusion pump customers and manufacturers is a perfect complement to our further success in this segment.”

About InfuSystem

InfuSystem is a leading provider of ambulatory infusion pumps to the outpatient oncology market as well as new and pre-owned infusion pumps and other biomedical equipment, and biomedical recertification, maintenance and repair services to hospitals, oncology practices and other alternate site health care providers. Headquartered in Madison Heights, Michigan, InfuSystem delivers local, field-based customer support and operates Biomedical Service Centers of Excellence in Michigan, Kansas, California, and Ontario, Canada.
